**SYDNEY, Australia – March 2, 2005** - Turn it sideways and it almost disappears—but look at it head-on and its image fills a room. InFocus® Corporation (Nasdaq:INFS), the worldwide leader in digital projection technology and services, has extended its expertise in providing the highest image quality to thin display with the InFocus TD40, a new, innovative display that fits in the most challenging spaces. With the InFocus TD40, businesses have even more opportunities to share information, ideas and experiences.

“InFocus is committed to developing big picture solutions with thin displays that complement our heritage in front projection,” said Lee Whincup, Country Manager, Australia and New Zealand at InFocus. “The new display provides amazing image quality in a thin profile that is increasingly requested in today’s business and commercial settings.”

InFocus understands that businesses need to display their image and messages in bright areas, small conference rooms and environments that require around the clock display. The InFocus TD40 is the perfect solution for applications such as conference areas, arenas, public information displays for transportation, hotels, retail signage and billboards, control rooms and trading floors. With its ability to fit in small rooms and operate in bright conditions, the thin display supports workgroup collaboration in nearly any environment.

The InFocus TD40 uses the latest LCD technology to provide a perfect solution for small conference rooms, corporate lobbies or control rooms. A great tool for communication and collaboration, the TD40 is bright, flexible and easy to install. With extensive data connectivity and an integrated television tuner, the InFocus TD40 offers multi-use features in an attractive form factor and a competitive price.

**Availability**

The InFocus TD40 is available at a recommended retail price of \$9,999 and is distributed in Australia through IDT. For more information please visit [www.idt.com.au](http://www.idt.com.au) or call 1300 666 099.

**About InFocus Corporation**

InFocus® Corporation (Nasdaq: INFS) has been innovating and developing new ways for people to share big pictures and ideas in business, education and home entertainment for almost twenty years. Beginning with our worldwide leadership in digital projectors, today our expertise extends beyond projection into large format displays, rear projection televisions, wireless connectivity, networking software and engine technology all designed to make the presentation of ideas, information, and entertainment an exhilarating experience.

InFocus Corporation's global headquarters are located in Wilsonville, Oregon, USA, with regional offices in Europe and Asia. For more information, visit the InFocus web site at [www.infocusstore.com.au](http://www.infocusstore.com.au) or contact the company on 1800 855 481.
