'IDT introduces OS Screens to Australia'

~ OS Screens to offer a high quality, cost-effective option for business and consumers ~

Sydney xx September 2006 – Image Design Technology P/L (IDT) has announced an exclusive partnership with OS Screens to distribute its complete range of projection screen products in Australia.

OS Screens is a dedicated projector screen manufacturer, well known throughout Asia for its high-quality and cost-effective screens. The screens are available in a wide variety of surfaces and installation options, from fixed frame and pull-down screens, to retractable and portable products.

Models designed specifically for the education and business markets, include a low-cost range of 4:3 Manual and Pull Down Screens as well as a portable 80" Mobile Pop Up Screen. These products feature 'White Mat' screen material, which reduces interference patterns and is adaptable to high-output projectors.

The home theatre range includes an affordable range of 16:9 aspect Manual and Motorised Pull Down models as well as a Fixed Frame products. These products feature 'Pure Mat II' screen material, specifically designed by OS to effectively reflect the light in a dispersed and wide-angle with spot-free equal brightness for high quality image reproduction.

"The range features a number of screens commercial applications in the boardroom and classroom as well as for consumer applications in the home entertainment space", says Gerry Wilkins, Managing Director IDT, "it provides the opportunity to implement high-quality screens, comparable to the top-end of the market, at an affordable price-point".

The range implements patented technology developments by OS, including Ball-Stop and Soft-Winding Mechanism, which allows manual screens to be raised and lowered as easily as electric models, mitigating the risk of overpowered retraction.

OS Screens is a member of the OS Group, which has a history of 52 years as a leader in the screen industry in Japan.
