Warranty Coverage

If, in IDT/Planar's determination, a product proves to be defective in material or workmanship during the warranty period, IDT will replace the defective part with a similar new or like new part. If the issue is deemed a manufacturing defect with the LCD, IDT will replace the product with a similar new or like new product. If replacement of the part or product is determined by IDT and or Planar to not be commercially feasible, IDT will refund a pro-rata share of the purchase price (calculated based on the remainder of the warranty period and the then-current MSRP₁ of a similar product).

Length of Warranty

All video wall LCDs are warranted for three (3) years from the date of shipment from Planar. All accessories, field replaceable units (FRUs), and Indisys integrated components which include, but are not limited to cables, remotes, power supplies, and controller boards purchased at the time of the initial product purchase are warranted for three (3) years from the date of shipment from Planar.

Eligibility

This Standard Limited Warranty covers product purchased from IDT a Planar distributor located in Australia and is valid only for the end user of the product. IDT may contact Planar Technical Support on your behalf in the event of a product defect. This warranty is not transferable. You may be required to provide evidence of proof of purchase.

Replacement Guidelines

Planar's Video Wall products are designed to be easily serviceable by the customer. The majority of parts in each Video Wall product are built as modules that can be replaced quickly; these modules are called Field Replaceable Units (FRUs). It is often easier and more cost effective for customers to replace modules than to send the entire display back to IDT's factory for repair.
