Overview: Samsung LCD playing content off USB drive

Just the Facts:

You must change MagicInfo to Player mode before you can play the local contents on the USB drive.

Here is the guideline:

- 1) Copy the contents to the root directory of the USB drive,
- 2) Use Notepad or DOS editor to create a batch file "AutoPlay.sch" and save it in the USB root directory,
- 3) Turn on the monitor and switch it to MagicNet mode,
- 4) Plug in the USB drive, Magicnet program will automatically search and analyze the AutoPlay.sch file and then play the contents accordingly.

Example of a AutoPlay.sch batch file:

```
;MagicNet Auto-play batch file
```

```
;Play JPG files.....  
<REPEAT>  
2  
</REPEAT>
```

```
<PLAY TIME>  
1  
</PLAY TIME>
```

```
<CONTENT>  
11534501.jpg  
33th0tk.jpg  
032218E5.jpeg  
</CONTENT>
```

```
;play wmv movies.....  
<REPEAT>  
2  
</REPEAT>
```

```
<PLAY TIME>  
3  
</PLAY TIME>
```

```
<CONTENT>  
tpl-60-006101w(1).wmv  
640_480_preview.wmv  
</CONTENT>
```

```
;End
```
