Get the latest version of **Encore!** at www.idt.com.au/Calypso/Calypso_Encore.html

If you are installing **Encore!** for the first time, **Encore!** will run in trial mode. When run in trial mode, the application is fully functional but occasionally a registration window will pop-up to encourage you to buy a license. You will have to close this window in order to continue working with **Encore!**. Purchasing a license will disable the Registration window and allow you to run **Encore!**, uninterrupted.

The Registration window contains an Authorization Code. This code is unique for the computer **Encore!** is installed on and is required as part of the registration process. This should be recorded in the field below.

Along with the Authorization Code you will need to provide an Authorized User Name. This Authorized User Name will appear in the 'About' menu as the name to whom **Encore!** is licensed and must be at least 8 characters in length. This should be recorded in the field below.

To register **Encore!** simply complete the four fields below and fax this form to Image Design Technology directly, or return it to your local IDT sales rep. Once payment has been confirmed you will be issued your unique License Code Key. Your IDT sales rep should be contacted for the current licensing cost.

Start **Encore!** and select the 'Enter License Code' button. This will display a dialog box that allows the Authorized User Name and License Key to be entered. Clicking OK completes the registration process and requests the user to restart **Encore!** Simply click the 'Continue' button and from the **Encore!** main screen, select 'File/Quit'. **Encore! is now fully registered and licensed.**

Note: Please ensure all characters are entered exactly as they appear on screen including upper case letters and hyphens.
